SUPPLEMENTAL PRELIMINARY AMENDMENT

Dear Sir:

The Notice of Omitted Item(s) in a Nonprovisional Application indicates that pages 93-113 of the application were not received. These pages present Claims 1-44.

Applicants submit that all of the pages of the application were filed on July 8, 2003. This belief is supported by the postcard that accompanied the filing of the application which indicates that 159 pages of specification (including claims and abstract) were being submitted (i.e., the entirety of the original application). This postcard was stamped by the U.S. Patent and Trademark Office and returned without annotation.

In order to expedite prosecution of this divisional application, however, this Supplemental Preliminary Amendment is submitted to officially introduce original Claims 1-44. This Preliminary Amendment does not introduce any new matter since the parent application was incorporated by reference in its entirety and further since that the parent application also included original Claims 1-44. For the sake of good order, Applicants also note that the Preliminary Amendment filed concurrently with this divisional application included amendments to some of Claims 1-44 and canceled others of Claims 1-44. Thus, original Claims 1-44 submitted via this Supplemental Preliminary Amendment should be entered prior to amending and canceling the claims as indicated by the Preliminary Amendment that was previously filed.

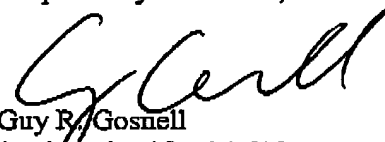

The filing fees submitted on July 8, 2003 took into account Claims 1-44 that are submitted herewith. As such, Applicants do not believe that any additional fee is required for

entry of this Supplemental Preliminary Amendment. If, however, the Office determines that any such fee is required, the Office is hereby authorized to charge such fee to Deposit Account No. 16-0605.

Applicants appreciate entry of this Supplemental Preliminary Amendment and favorable consideration of the amended set of claims.

Respectfully submitted,

Guy R. Gosnell
